

A NATIONAL LOAN.

Judging from the way in which the Assembly is dealing with the Appropriation Bill, so far, we may reasonably anticipate that the final footing of over three millions of dollars, as represented by the Ministry at the outset, will reach nearer four. To be sure, some of the increase for specific purposes, and new items, are for useful and needed objects, such as landings and breakwaters, but some others again are of more than doubtful utility. In fact it may be said, as a general thing that the voting of money by our legislators is done in a remarkably perfunctory manner, without any serious consideration as to how and by what means the funds are to be obtained. It appears to be taken for granted that Ministers will realize all the money thus lavishly put on paper. Perhaps, however, there is a hazy idea in the minds of Honorable gentlemen that the much talked of Ten Million Loan is at their backs, in some mysterious way, the bill to authorize which if passed, will put an end to all financial *pitikias*. But the acquaintance of the average Hawaiian lawbreaker with the tone and temper of foreign money markets, is necessarily very limited. He would probably be surprised if told that before handing over the millions required for carrying out his little schemes, the lenders would not only demand a lien on his government resources, but would probably be so unreasonable as to "want to know, you know," to what purposes the borrower intended to apply the aforesaid millions. He would also be somewhat surprised to be told that his bonds would not probably realize more than 85 cents on the dollar; and so, various other little matters might be mentioned, calculated to "give a check to proud ambition."

Still, it is pretty evident that Government will require to borrow somewhat, in order to carry out needed public improvements; and it remains to be seen how moderate they will be in their demands and how judiciously and economically they will spend the money. Without a loan, they will not be able to execute all the work laid out in the bill, and it will cause dissatisfaction, if one section is favored and another neglected. It will be unpleasant to the Ministry, two years hence, to have the Hon. member for Molokini arise in his place and demand in tones of thunder, why the sum which was duly appropriated had not been expended in building a bridge to connect his constituency with that of the Hon. member for Kahoolawe!

We have received a letter from Z. Y. Squires, proprietor of the American House, in which he characterizes as false the story in yesterday's *P. C. He declares that the whole proceeding was essentially a quiet one, and that the offender, a Spaniard, almost immediately after, left the premises.

The schooner Julia, Tierney, arrived yesterday, after a long passage of 47 days from Strong's Island. She brings as passengers the Rev. Messrs. Taylor, Lono, Kaiaia, and Nalimu, Mrs. Snow, Miss Cathcart, and others, returned missionaries, and 21 South Sea Islanders for a Kauai plantation.

A GENTLEMAN who with his family resides about a quarter of a mile distant from the quarry on the side of Punchbowl, exhibited to us yesterday several rocks, nearly of the size of one's fist, which were projected from a blast in the quarry and fell in his enclosure. One of these, striking a person on the head, would, to say the least, produce unpleasant results. More caution should be observed in covering these blasting operations, or some one may get hurt. The geological specimen in question may be seen on the counter at J. W. Robertson & Co's.
